

## SAP S/4HANA Consultant (m/f/x)

**LOCATION**  
Cluj-Napoca

**COMPANY**  
ARRK Research & Development  
SRL

**CONTRACT TYPE**  
Full-time

**Form of Work**  
Hybride

### WHAT TO EXPECT

- In our **Digitalization & Software** group, we move with the agility of a startup, driving digital transformation by introducing AI and replacing complex processes with modern, software-driven solutions. If you think ahead and take initiative, you'll feel at home here. In this role, you'll guide clients through their SAP S/4HANA journey, ensuring secure migration paths, strong data quality, and cloud-readiness. You'll work closely with business and IT teams, troubleshoot challenges, and help introduce new SAP capabilities, including early insights into SAP Joule, to enable long-term success.

### YOUR TASKS

- Support clients in all topics related to SAP S/4HANA, with a strong focus on system and database migration activities
- Analyze and assess existing data structures, ensure data quality, and design secure and efficient migration paths
- Evaluate cloud-readiness and support transitions toward SAP S/4HANA Cloud or hybrid landscapes
- Collaborate with business and IT stakeholders to define requirements, align on migration strategy, and ensure smooth implementation
- Prepare and execute migration tests, troubleshoot issues, and validate results
- Provide guidance on best practices for S/4HANA architecture, integration, and system performance
- Document technical concepts, migration steps, and solution approaches in a clear and structured way
- Support the client in exploring and adopting new SAP capabilities, including SAP Joule, by sharing initial insights and hands-on experience
- Contribute to post-migration optimization, stabilization, and knowledge transfer to ensure long-term success

### YOUR PROFILE

- Degree in Information Systems, Computer Science, Business Informatics, or a comparable technical qualification
- Strong knowledge of database migration, data transformation, and data validation processes
- First practical experience with SAP Joule or strong interest in emerging SAP technologies
- Ability to translate complex technical topics into clear, actionable concepts for business stakeholders
- Experience in managing or supporting system integrations, migration testing, and the final go-live process
- Familiarity with SAP landscape architecture and data models; basic technical (SAP Basis) or business process (functional) experience is a plus
- Business-proficient in English; German is a plus

### YOUR BENEFITS

Exciting projects

Flexible working  
hours

Employee events

Creative scope

Sports and  
wellness offers

Pleasant working  
atmosphere
