

## Engineer (m/f/x) for Life Cycle Assessment (automotive industry & beyond)

**LOCATION**  
Petaling Jaya

**COMPANY**  
ARRK Malaysia Sdn Bhd

**CONTRACT TYPE**  
Full-time

**Form of Work**  
Hybride

### WHAT TO EXPECT

Our team of sustainability- & material-experts in Wolfsburg, Germany is looking for support in various projects in the automotive industry and beyond to perform life cycle assessments and establish workflows for new LCA-related legislation. We work in various projects that evolve around LCA and leave much freedom for creativity. Our core-values, teamwork, active communication and responsibility ensure the high-quality results. Join us, apply now!

### YOUR TASKS

- Active participation in customer projects with a focus on life cycle assessment, including requirements analysis, data management and curation, communication and carrying out analyses.
- Creating and analyzing vehicle or component parts lists. Obtaining missing material data from the supply chain.
- You independently create environmental declarations on the basis of externally certified life cycle assessments / LCA studies in accordance with ISO 14040 or customer standards.
- Prepare reports for customers for certification and accompany the certification audit.
- Confidently presenting results and intermediate status-reports to the customer (in German).
- Creating reports, overviews and project-specific presentations as part of day-to-day business and keeping track of deadlines and minutes.
- You will help to constantly improve the processes and tools by bringing in your own ideas.

### YOUR PROFILE

- You successfully completed your studies in the field of engineering/natural sciences, chemistry, environmental management, or similar MINT-field.
- You have extensive practical knowledge about life cycle assessment (LCA) or other environmental sustainability assessment methods.
- Experience with LCA databases is beneficial.
- Experience with LCA software like GaBi (LCA for experts) or similar is beneficial.
- Knowledge about vehicle-production and vehicle-parts would be a bonus.
- Confident handling of common MS Office tools, especially MS Excel required.
- Strong teamwork and communication skills as well as confident dealing with external and internal contacts.
- Independent, self-responsible working style and a high level of proactivity.
- Fluent in English  
German is a plus
